Image Guide for the Canadian Screen Awards

Please review this document in its entirety to ensure that your image appears correctly on academy.ca and in our nomination reel in the event of a nomination.

WEB IMAGES ON ACADEMY.CA

Our website automatically crops photos which can result in an image appearing skewed.
To ensure your image is cropped properly, please submit it at the dimensions below without any elements (such as faces) cut off.
Please note that we do not recommend submitting production stills for this purpose.

IMAGE SUBMISSION TIPS & NOTES

IMAGE ORIENTATION TYPES*

Portrait
height > width

Landscape
width > height

Our website automatically crops the images submitted to the dimensions listed on page 1, cropping from the centre of the photo. We recommend submitting a Portrait image, as they are more likely to remain in tact during the cropping process. Submission of a landscape photo will result in a majority of the photo cropped out, as illustrated below.

CENTRE HEADSHOT SUBJECT*

It is imperative that headshots are submitted at the correct dimensions. Those that are not run the risk of being cut off, as illustrated below.

Please ensure that the subject(s)' head is centred within the frame with negative space surrounding.
